

Your health is our #1 priority.

TLG Peterbilt is taking measures to prevent COVID-19 and flu related illnesses from spreading and is remaining open with normal hours until further notice. Let's work together to keep your travel safe.

This is how we're doing our part to help combat this:

-  **Your trucks are being sanitized after every completed fix.** We're wiping down your doors handles, steering wheels, dashboards and elsewhere.
-  **We're cleaning, cleaning and cleaning much more.** Every flat surface, door knob, bathroom, counter and all the crevices are being cleaned regularly.
-  **We encourage local parts delivery and shipping.** We're offering alternative shopping methods if you prefer not to purchase in-person.
-  **We're limiting groups to less than 10.** Whether you're a customer in the parts showroom or an employee in the break room, please respect this new policy.
-  **We're limiting in-person meetings.** Most of our sales staff is now primarily working with customers via email and phone. Please consider alternative methods.
-  **We're utilizing our mobile service team.** Please consider our mobile service options to provide basic to extensive work on your truck.

If you have any health concerns, please reschedule any business or appointments with TLG Peterbilt and seek medical advice from your doctor.

Safety is our #1 priority. TLG is taking special care to disinfect your equipment inside and out to ensure virus-free spaces.
